

SIGNS YOU NEED

EMERGENCY

DENTAL

TREATMENT

HAVE SWELLING OR BLEEDING

Swelling and bleeding are always a sign that something more problematic is happening in your mouth.

SEVERE ORAL PAIN

Oral pain isn't normal, so it's important that you visit your Everton Hills dentist to have any pain assessed.

KNOCKED-OUT TOOTH

Whenever you suffer an oral injury, you should try to visit your dentist near me as soon as possible.

CHIPPED TOOTH

Broken and chipped teeth are common when playing high contact sports or engaging in complex, high-risk activities.

ABSCESSSED TOOTH

An abscessed tooth is essentially a pocket of pus that can form as a result of a bacterial infection. Tooth abscess are a dental emergency because they can lead to serious infections that can then spread throughout your body.

FRACTURED DENTAL WORK

If a dental restoration or piece of dental work has become broken or fractured, you should see your dentist near me as soon as possible. Sometimes, fractured dental work can be harmful to the rest of your smile.

Have a healthy smile! 😊
