

# Anchor and Dacking

# What is Boat Anchor

Boat anchor is a device made with metal used to connect the body of water to prevent the craft from drifting due to current and wind.

# TYPES OF BOAT

## ANCHOR

### CLAW ANCHOR

Claw anchor is one of the best anchors as it is used for all purpose. performs well in most sea bottoms

### WING ANCHOR

Wing Anchor has the strong holding power among all other boat anchor.

### FLUKE ANCHOR

Fluke anchor remains the popular anchor choice. This anchor performs well in mud and anchor.
