2 What Is Hemp Oil?

Hemp oil is extracted from the hemp plant. The plant has been used for thousands of years to produce cloth, paper, and rope, among other things. In modern times, it's used in everything from car parts to cosmetics, food, supplements, and medicine.

Hemp seeds have been used throughout history as food, mostly for animals. More recently the seeds and oil are being used as ingredients in baked goods, smoothies, salad dressings, and many other food products, due to its nutritional benefits.

3 The Benefits of Hemp Oil

Hemp oil is considered a Superfood. It contains a balanced 1:3 ratio of omega-3 and omega-6 essential fatty acids. This is more than any fish and most fish oil supplements. These fatty acids boost your body's immune system.

Hemp oil can lower cholesterol, moderate blood sugar level, fight inflammation in the body, and helps maintain your hormonal balance.
