

How to Create a Productive Workspace

21% of workers admit that having a cluttered desk adds to their workload.

Brother.co.uk: Messy Desk Tidiness Genius Research Statistics

Your workspace environment has a bigger impact on productivity than you realize. Here are five factual eye-openers.

Keep It Clean

Workers lose an average of 9 days a year to sickness. Keep your keyboard, desktop and workspace items clean and disinfected.¹

Turn Up the Heat

A study found that increasing office temperature from 68 to 77 degrees F reduced typing errors by 44% AND increased typing output 150%.²

Get Some Green

You can't be productive when you're down. Desk plants improve air quality and your mood, reducing tension, anxiety and fatigue by 38%.³

Sit Well

An ergonomic chair will keep you feeling good and increase your productivity up to 16%.²

Declutter!

Studies show workers waste 4.3 hours per week searching for papers.⁴
