

HOW TO REMOVE COFFEE STAINS FROM YOUR CARPET

1. Act as soon as possible.
2. Use a paper towel or a dishcloth to gently blot the stain to absorb the moisture.
3. Flush 1 cup of cold water on the stain and blot it with a clean towel.
4. Mix 2 cups lukewarm water, $\frac{1}{4}$ cup lemon juice (you can replace it with white vinegar) and a bit of liquid dishwashing detergent and stir as well.
5. Damp a clean sponge with the solution and apply it in on the stain. Gently rub in a circular motion starting outside to the inside of the stain.
6. Rinse with clean water and remove the excess moisture with a dry towel.
