

5 SMART CONSTRUCTION IDEAS FOR SMALL SPACES

RESOURCEFUL

1

When it comes to a small space, carefully plan the living area and its interior. Like for dining, opt for an open kitchen with sleek tables & chairs.

2

POCKET DOORS

There are many options to save space, and one of those is to slide the doors and windows right into the wall while it is not in use.

STORAGE

3

You can also get your furniture customized to meet exact storage requirements. Furniture's space help you store all the extra items that would otherwise take a lot of space.

4

KEEP IT SIMPLE

Do not overdo the décor or add a heavy false ceiling, which makes the room look bulky and congested. So keeping it simple and easy is the key to a beautiful small space.

COLOR IT RIGHT

5

Choosing the right color creates illusion of big space. It is recommended to choose light, subtle colors and shades to make the room feel bigger and spacious.
